HEADACHE

DR. E. SPOHN, a German physician of much note, having devoted his attention for some years to the cure and removal of the causes of the NERVOUS AND SICK HEADACHE, has the satisfaction to make known, that he has a remedy which by removing the causes cures effectually and permanently this distressing complaint. There are many families who have considered Sick Headache a constitutional incurable family complaint. Dr. S. assures them that they are mistaken, and laboring under distress which they might not only alleviate, but eradicate by the use of his remedy.

It is the result of scientific research, and is entirely of a different character from advertised patent medicines, and is not unpleasant to the taste.

NEW AND IMPORTANT DISCOVERY.

DR. PHELPS' COMPOUND
TOMATO PILLS,

[ENTIRELY VEGETABLE.]

A New and Invaluable Medicine for all Diseases arising from Impurities of the Blood, Morbid Secretions of the Liver and Stomach: also, a

Substitute for Calomel;

as a Cathartic in Fevers and all Billious Affections.

THESE popular Pills being a combination of a newly discovered Alkaline substance, extracted from the TOMATO PLANT, with other vegetable substances which have been found to modify and diffuse its effects, are believed to be the best Alterative and Cathartic Medicine ever discovered. They have been abundantly and successfully tried, and have received universal approbation for Scrofula, Dyspepsia, Jaundice, Billious Diseases, Gravel, Rheumatism, Coughs, Colds, Influenza, Catarrh, Nervous Diseases, Acid Stomachs, Glandular Swellings of all kinds, Costiveness, Cholic, Headache, &c.

They are an antidote to Contagious and Epidemic diseases; prevent the formation of Bilious and Liver affections, Fever and Ague, &c., in those who reside in hot climates, and low and marshy countries, and are the best Cathartic that can be used for those localities. Seamen will find them an infallible remedy for the Scurvy; and Travellers, the best medicine they can use to counteract the dangers of exposure in unhealthy climates. For ordinary Family Physic, they are universally approved, as the best ever offered.

These Pills have a powerful and salutary operation upon the Glandular System, removing all obstructions from the Gland, wherever situated, Scirrosities and Scrofulous Taints in all their forms, and if persevered in, no case of Scrofula, however severe, can resist its influence. It is in their operation on the Glandular System, that their effects are so peculiar and potent, and so nearly resemble that of Calomel. In fact, the Tomatine has all the Alterative Deobstruent and Cathartic properties of Calomel, without ever producing unpleasant or injurious effects under any circumstances, either from exposure to cold or wet; on the contrary, the Compound Tomato Pills are the best remedy ever known to counteract the effects of Mercury, completely eradicating every particle of it from the system, and renovating the constitution broken down by its use; which it does by correcting the state of the blood, and through that, correcting the morbid secretions of the glands, and restoring them to a healthy and their own proper action. Its effects are analogous to Sarsaparilla and Blood Root, and in its combined action in the ingredients composing the Pills, it exerts a universal action peculiar to itself.

The peculiar virtues of the Tomato Plant, have for a long time attracted the attention of the Medical profession and the Public, and a lively interest has recently been directed to the future developement of its active powers, and its Antibilious and Alterative qualities; which the Proprietor is now happy in being able to gratify, and presents his Pills to the Public, with the full confidence of their being the most safe and valuable remedy ever discovered, adapted to all cases where nature is disturbed, and when any of the functions do not perform their natural or healthy action.

Numerous certificates of cures, from those who have taken them, and the testimony of several Physicians who have prescribed them, all concur to corroborate this opinion. The rapidly increasing demand for, and the universal approbation bestowed upon them, is an additional evidence of their merits and usefulness.

In presenting this article to the public, the Proprietor was induced by the hope that a medicine prepared with much care, and strict regard to the Chemical and Therapeutic properties of its several ingredients, should take the place of the thousand and one irresponsible nostrums of the present day, with which the country is deluged—and from the favor already bestowed upon it, by physicians and others, he feels justified in expecting this result.

Often have the cures performed by this medicine been the subject of editorial comment, in various newspapers and journals, and it may with truth be asserted that no medicine of the kind has ever received testimonials of greater commendation than are attached to this.

Females from forty to fifty years of age will find them a powerful assistant to Nature, in the important change in the functions of the system, removing all liabilities to Cancers, glandular swellings, &c., and assisting to establish that new action in the animal economy which nature often fails to do. None should avoid a free and continued use of them, if they wish to escape a long train of incurable maladies. For this purpose one should be taken every night and morning, and continued as long as any unpleasant symptoms remain.

For that congested and deranged state of the system which occurs in the commencement of Spring and Summer, these Pills of are particularly applicable, in preventing Rheumatism, Coughs, congestion of the lungs, &c., and have prolonged many a life that otherwise would have been a sacrifice to the changes of the season.

Those persons liable to sore throats, swelling of the glands, coughs, and other symptoms indicating Scrofula or Consumption, should take warning in season, and embrace a remedy, which, while it is searching out and eradicating disease, makes no deductions from the vital powers of the system.

As a Dietetic or Dinner Pill, one taken half an hour after dinner, will sufficiently stimulate the digestive powers of the stomach to a healthy and invigorated action, and they are found extremely serviceable for those who indulge in long dinners, or late suppers, or immoderately in desserts or fruit.

☞ For a full account of this interesting discovery, testimonials, mode of operation, &c., see pamphlets in the hands of all who sell these Pills.

*** Enquire for PHELPS' TOMATO PILLS, and be particular to observe that the label is signed G. R. PHELPS, M. D. Price 37 1-2 cents, with full directions accompanying each Box.

New Medicine. An Alkaline principle called Tomatine has been discovered in the Solanum class of plants, particularly in the Tomato, which promises to be of peculiar service in Lung Affections, Scrofula and Glandular obstructions, particularly of the Liver—also an antidote to Mercury. It is embodied in the Compound Tomato Pills, which are truly worthy of a trial.

From the Patriot & Democrat.

PILLS. Unlike the numerous speculations of the day, there is one medicine which deserves the popularity and patronage it is receiving. We allude to Dr Phelps' Compound Tomato Pills. Judging from the patronage they are receiving from the Medical Faculty, and the approbation of those who have used them, we should expect they would supercede all others in use, as a family medicine. Being [illegible] the medical profession whose character in this vicinity is a sufficient guarantee for the character of his medicine, we are enabled thus confidently to speak of it, and fully believe it is entitled to the confidence of the community.

From the N. Y. Transcript.

COMPOUND TOMATO PILLS.

Dr. Phelps of Hartford has brought into successful use a most invaluable medicine in the Pill form, [illegible] healthy and pleasant vegetable, the Tomato. As this plant is known to possess medicinal virtues of a high order, as well as a large amount of nutriment, so the medicines into which it is compounded is known to be powerfully available as a curative remedy in morbid secretions of the Liver and Stomach, impurities of the blood, and diseases of a bilious type generally. It is an excellent substitute for calomel, as an anti-billious and cathartic medicine, without its injurious properties, and has been found extremely efficacious in the cure of a long catalogue of diseases. Having adventured upon the use of this medicine ourselves, we cordially recommend it to others.

DR. SEARS' UNIVERSAL SANGUINARIAN---OR
BLOOD-ROOT PILLS.

THE pretence that any medicine is nearly an "infallible cure" for all diseases "that flesh is heir to," whatever their character is a flagrant imposition upon the public confidence, and a most wicked outrage upon the generous sympathy that suffering humanity justly demands of us. Yet the very frequency and boldness of these impious frauds so eminently cruel to the unfortunate, furnish solid ground for presenting the public a remedy that may be intelligently appreciated and relied upon. That powerful medicinal agent, the Blood Root, is the basis of the Universal Sanguinarian Pills, and all the materials are drawn from the Vegetable Kingdom—the grand source of support to animal existence. But in the combination, the different ingredients are so blended and modified as to give the compound a remarkable advantage over the simples, and it is believed over all other medicines. When it is considered that nearly all diseases, chronic and acute, are connected with a disordered action of the stomach and bowels, and that in most instances, this is superinduced by disorder of the Bile, or Gall, which is the natural physic of the system—and when it is farther considered that these Pills act with singular power upon these many organs, and through them upon the blood and entire physical economy, sober reason must justify the assertion that this valuable discovery furnishes a remedy of rare efficiency in all curable cases of disease; and this deduction of reason is abundantly corroborated by experience. This medicine harmonizes with the laws of life, inspires and strengthens nature, and works its wonders, by generously cheering her on to a triumphant conflict with the offensive agents of disease. It is offered for general use, and as a safe and most valuable family medicine. Safe, not because it does nothing, (like many contemptible nostrums of newspaper celebrity, which by occupying the place of efficient remedies, are often fatal) but safe, because it aids and co-operates with nature, instead of setting her aside and violently attempting to perform her work by dangerous foreign agency.

COPY OF CERTAIN RESOLVES PASSED BY THE LEGISLATURE OF MAINE IN THE YEAR 1841.

STATE OF MAINE.

RESOLVES for the appointment of a Board of Commissioners to settle the claims between certain individuals and the State.

RESOLVED, That the Justices of the District Courts in this State be appointed Commissioners (and in the event of a vacancy in the Board from any cause, the Governor, with the advice and consent of Council, shall forthwith proceed to fill the same) whose duty it shall be, on application made within one year from the passage of these Resolves of any person indebted to the State for the purchase of lands sold since the first day of January, in the year of our Lord one thousand eight hundred and thirty four, or who have become assignee to any such purchaser, and having an equitable claim against the State, praying to be relieved from the payment of notes due to the State, and from obligation to perform certain settling duties, either wholly or in part, and asking for a conveyance of the land originally contracted to be sold, either wholly or in part, to proceed and hear and examine, on oath or affirmation, every question and all facts relative to said applications. And said Commissioners are hereby empowered, after a full hearing and examination of such cases, to make a written report to the Land Agent, directing him to settle and adjust said claims in such way and manner and upon such terms, as to them shall seem equitable, just and expedient; and said Commissioners may further direct such costs to be paid by said applicants, on account of expenses incurred by the State as to them shall seem reasonable and proper, to be paid before the execution by the Land Agent of the award.

Resolved, That each applicant shall make out and file with the Land Agent, as soon as may be, brief statements of his case, one copy of which shall be forwarded by the Land Agent to each of the Commissioners, and one to the Attorney General.

Resolved, That all documents and written evidence produced before said Commissioners shall be deposited in the Land Office.

Resolved, That the Land Agent be and hereby is authorized, upon the report made to him in writing by said Commissioners or a majority of them, to cancel and surrender any notes, securities or obligations in his hands, and to discharge mortgages, give releases, and make and execute conveyances, in such way and manner, and upon such conditions only as shall be prescribed in the report of said Commissioners.

Resolved, That the Governor, with the advice of Council, is hereby authorized to audit the accounts of said Commissioners, and to allow them such compensation for their services as to them shall appear reasonable and proper; and the Land Agent is hereby authorized to pay said Commissioners the amount due them allowed as aforesaid by the Governor and Council.

Resolved, That said Commissioners shall give public notice of the time and place of their first meeting under this Resolve three months prior to said meeting, by publishing a notice thereof three weeks successively in the State newspaper and in such other public newspapers as they may think proper; and it is hereby made the duty of the Attorney General to procure evidence and to attend the meetings of said Commissioners, and act in behalf of the State in all applications that shall be laid before said Board of Commissioners. [Approved March 31, 1841.]

STATE OF MAINE.

An additional Resolve in relation to the appointment of a Board of Commissioners to settle claims between certain individuals and the State.

RESOLVED, That the Resolves approved Mar. 31, 1841, appointing the Justices of the District Court a Board of Commissioners to settle the claims between certain individuals and the State, shall become a law and take effect from and after the passage of this Resolve; that a majority of said Justices may constitute said Board and be authorized and empowered to act in the premises, and that thirty days notice shall be given, instead of three months notice as required by said Resolves. [Approved April 16, 1841.]

The undersigned the Commissioners named in the foregoing Resolves, hereby gives notice that they will meet at the COURT HOUSE, in Bangor, on the TWELFTH DAY OF JULY NEXT, at ten o'clock in the forenoon for the purpose of acting upon the claims, and performing the duties contemplated in said Resolves.

COURT CALENDER.

The whole number of Law and Equity cases on the docket of the Supreme Judicial Court now in session is 135. Of this number, nineteen are Equity suits. Above forty of these cases have been argued at former terms, and opinions are expected at the present term of the Court.

By the aid of our friends at the Bar, we hope to give some notice of the cases argued or determined at the present session. On Friday the 25th inst., six cases were heard; four on the 26th, four on the 28th, and four on the 29th.

An opinion has been given in only one case, ALLEN GILMAN, petitioner for partition v. AMASA STETSON. The petitioner claimed one-fourth of a lot on Exchange street by a deed from one Harlow, now covered by the shop occupied as a marble factory. Respondent claimed under Robert Lapish. The principal question was as to the effect of a judgment recovered by Lapish against Gilman in 1827. The jury found Gilman entitled to betterments in that case. Lapish did not abandon on the record, or pay the betterments according to law. The Court therefore held that said judgment could have no effect to purge the disseizin of Gilman, and that his possession had given him a title. *Judgment on the verdict.* GILMAN and ROGERS for Petitioner. F. ALLEN for Respondent.

☞ It turns out that the party which were seized by the crew of the Merchant, which left New Orleans in search of the Balize pirates, were an innocent fishing party composed of four individuals, two of whom were brothers, and in the affray one was killed. Paul Lusey, whose brother was killed, has given an account of the transaction, from which it appears that at about 9 o'clk on the evening of the 10th, about 30 men approached their encampment, and without the slightest parley rushed upon the fishermen, surrounded them with bayonets, shot one of their number who was very naturally endeavoring to escape from such rough usage, and after binding the others, wreaked their vengeance on the oysters their victims had collected together. The whole affair seems to have been conducted with the most reckless brutality. The whole party offered to surrender, but were treated with the greatest harshness, and their lives endangered by the bayonets of the savage crew. To pounce upon innocent men in this brutal way is certainly a very questionable mode of capturing imaginary pirates. An investigation was held on the 17th before the Mayor, which resulted in binding over four of the captors for trial at the Criminal Court in the sum of $5000 each.

☞ The editor of the Watervillian declares, that, like a philosopher, he does not write or print for money, but rather seeks to reform the morals, purify the taste, and enlarge the knowledge of the community, and the only reward he expects or desires is the record of his name in the future history of Waterville village. That is the right sort of speech and is as well expressed in the old song:

"I'll be an editor, deuce take the creditor,
Writing for glory and printing on true."

☞ Delicious wild strawberries are now daily brought into market in abundance, and the down east girls understand the art of smothering them in cream to suit the most delicate taste.

☞ Coacoochee, alias Wild Cat, arrived at Key West on the 16th inst, on his way to New Orleans and the far West. Wild Cat is described as about 30 years old, six feet high, and a model of manly beauty.

☞ Three dead bodies, bearing deep gashes of a bowie knife, were found on the 16th near the South West Pass. The New Orleans papers of course think them part of the murdered crew of the Charles.

☞ The Louisville Journal states that a farmer in Illinois has tested by experience, that the milk sickness may be prevented by freely salting the cattle.

JOHN SERGEANT. The Philadelphia Chronicle says it has been ascertained from the very best sources, that the Hon. John Sergent, Representative in Congress, from that city, has been offered the mission to the Court of St. James, but declined accepting it.

THE BIBLE. IN WHAT SENSE IS IT INSPIRED?
To the Editors of the Whig and Courier:

GENTLEMEN, In your paper of Tuesday, I notice an article in which a clergyman of this city says he "concurs with Rev. Theo. Parker, of Roxbury, in not regarding all parts of the Bible as inspired, in the sense in which inspiration is claimed for them by some." Many readers of that article are inquiring, In what sense does its author regard any parts of the Bible as inspired? In what lower sense are some other parts inspired? And how are we to distinguish these different parts of the inspired word? If the author of that article will briefly explain these points, he will confer a favor on the subscriber, and probably on some other readers of your paper, and may do a good service to the cause of [illegible].

Yours, respectfully, A. WILSON.
[illegible], July 1st, 1841.

[illegible] *Nathan Clifford*, [illegible] Maine, [illegible]

For the Whig and Courier.

Dear Mr. Editor. As all creation seem determined to play their tunes through your horn, you will, I feel confident, indulge your humble servant with a small blast. I am astonished that most of this fiddling has been done on one string. The spirit of emulation is abroad to see who can be the most severe in his criticisms on the ladies dear creatures, and their costumes. Just as though these breeched feminines *could* or *should* know, what it is best and what best not, for the better half of man to adorn their heavenly persons with. The laws of chivalry in this enlightened age, are entirely disregarded; and *pretended* philosophers dictate where they ought to yield implicit faith. Now, I would suggest a thing or two in behalf of the deeply injured "fair sex." In order that none may call in question my logic, I will first establish my premises according to the truth and right reason.

Proposition 1st. Has the Creator blessed the loveliest of his creation Woman with common sense?

Now let any of the *lords of creation* so far forget his manhood so link himself with the wicked spirit as to rob himself of all lofty aspirations for the sublime, beautiful, and excellent, as to negative this proposition, if he dare? Well, that proposition is settled beyond question, now let us draw our conclusions. The ladies have reason they have common sense. Now having these requisites, the sweet creatures have determined to adopt certain articles of dress to add to their natural charms. Yet certain dunces would be *Philosophers* have reasoned, or pretended to reason, against their wearing these articles. The conclusion is a logical one, from the premises established, that these reasoners are reasoning against reason and common sense. But supposing that a violation of the organic law which supposes that nature can do her own work does take place, by the adoption of certain articles of dress. What business have the males to interfere with what does not concern them, and that against reason and common sense? *What if the Ladies do faint in Church* in consequence of tight lacing what if they are compelled to walk through the streets as though they walked on eggs, and were fearful of breaking them what if they do excite the disgust and pity of all sensible men what if they make themselves resemble hour glasses, with barely room enough in the middle for the sands of time to run through what if it is a dangerous experiment for them to go out in a high wind lest they blow in two what if lacing does make them round shouldered, humpbacked, crooked, consumptive what if it does destroy the integrity of the brain and render their intellects feeble what if it does beget carious teeth, their early loss, bad breath, good for the dentist rendering them unhappy and miserable three fourths of the time what if it does render them subject to colds, mostly ending in consumptions and invariably cheats them out of one half of their natural length of life what if it does cause so many deaths say one half, among infants, and young married people so often die leaving the infant to be reared by hand what if it does destroy the freshness of beauty's bloom and render the skin sallow, pale, sickly, and grave like. I say, what if all these consequences do follow; and you may add about one hundred more by way of interest, still whose business is it when the ladies have reason and common sense beyond the possibility of a doubt? Now, I will close my observations for the present, by *expressing* my entire devotion to the fair sex of the present generation few can possibly admire them more. I am their constant attendant; and if none will marry them on account of their evil ways, let them turn to me as a refuge. DEATH.

☞ The body of President Harrison reached Baltimore at 3 o'clock in the afternoon of Saturday, and was received with appropriate honors. The spectacle of the mortal remains of the hero and statesman, borne along in solemn silence, and followed by a little band of mourning friends, clothed in funeral habiliments, was truly in striking contrast with the crowds, the shouts, and the joyous demonstrations which marked his approach to the same spot but a few months before.

THE CROPS. We are glad to perceive by the papers this morning, that there have been refreshing rains throughout western New York, which have greatly revived the drooping spirits of the farmers, and give promise of an average crop of grain and grass. The rains have probably extended still further west.

☞ A Temperance Convention assembled at Portland on Wednesday, and Mr. Hawkins of Baltimore, addressed the meeting.

☞ We are indebted to Winslow's Express for several of the latest Boston papers.

☞ The Picayune says that on the night of the 14th a woman gave birth to a child in a car on the Ponchartrain Railroad. She threw it out at the window, but it was found alive and well the next day.

How to cook Green Peas. The common method of cooking this delicious vegetable, by boiling in water, is nearly destructive to its flavor, at least so says a lady who has sent us the following method of preparing them for the table, which, after experience, we must add is a great improvement. "Place in the bottom of your [illegible] pan or boiler several of the outside leaves [illegible] with two ounces of butter in proportion to half a peck of peas. cover the pan or boiler close, and place it over the fire. In thirty minutes they are ready for the table. They can either be seasoned in the pot or after taken out. Water extracts nearly all the delicious quality of the green pea, and is as fatal to their flavour as it is destructive [illegible] dog." [New York New Era.

SHIP WILLIAM BROWN.

John Messer, one of the crew of the ship William Brown, Capt. Harris, which was wrecked in the ice on the 19th of April, called on the editor of the Boston Post on Friday, and furnished him with a statement relating to the loss of the ship, and the circumstances connected with the heart rending affair in the long boat. He spoke in the highest terms of Capt. Harris, as an able experienced commander, and a generous, noble hearted man. Mr. Messer is still in a very weak state of health, from his suffering in the boat, and he fears that he will never perfectly recover.

Statement of John Messer.

I am unacquainted with the particulars relating to the the fatal collision which caused the loss of the William Brown. We felt the collision below but did not think of hurrying on deck, especially as we were not called. Nearly twenty minutes elapsed, I think, before we were called and then the not unusual cry of all hands shorten sail, roused us on deck. The topgallant sails, foretopmast studding sail, and other light sails were taken in, and the topsails clewed down, and the reef tackles hauled out. The captain then went down in the forecastle in order to ascertain what damage had been done, and upon ascertaining, he exclaimed "My God, we can't save the ship, it's no use clear away the long boat." The pumps had previously been rigged, and every effort used to keep her afloat, but without effect.

The long boat was cleared away, and provisions, water, a compass, quadrant, and several other articles were put on board of her. One or two of the passengers secreted themselves in her while she was yet on board, and were hoisted out in her. When she was in the water, the passengers made a rush, and I believe that several of them perished in their haste to get on board. In the meantime the stern boat was lowered down, but as I did not see what transpired, I will not state any thing upon hearsay. The boats both dropped astern, where they remained fast by their painters to the ship until she was on the eve of sinking, when they were cut adrift. The ship went down in about three hours, I think, after she struck. There were forty two in number in the long boat.

At daylight, Capt. Harris told the mate the latitude and longitude, and advised him to steer N. W. The captain then took the names of the passengers and crew, after which the mate told him that the long boat was very leaky and could not live. Some communication which I did not distinctly hear, then passed between the captain and mate, to which the captain replied, "I will not hear such talk." The mate then distinctly said "We must cast lots we all cannot live, some of us must die, the boat is so leaky." The captain again remonstrated with the mate.

During the whole of the day the weather was extremely cold, and the sea very rough. We rigged a drag with our oars, in order to keep the boat's head to the sea, and to break the force of the waves. Towards nightfall the mate consulted, in a low voice, with several of the crew, about lightening the boat. I was aft at the time with my back against the stern. At last he said to me and another man, who was near me, "Well, I suppose you have no objection to lend a hand to lighten the boat." I inquired how he intended to do so, and while I was speaking, I heard a splash along side and the whole boat in an uproar the work of death had commenced. The other man and myself remonstrated against such cold blooded proceedings, and said "If we are to die, let us die fair let us cast lots." "Very well," said the mate, "they will throw you overboard next." I then drew my sheath knife, and swore that whoever should lay a hand on me, should share my fate. The mate then called a tall negro, one of the crew, to toss me overboard, but when he saw my knife he went forward again and lent the others a hand. My companion stuck close to me during the whole of the heart-rending scene, determined to defend himself to the last.

One old man, a native of Ireland, when about to be seized, fell upon his knees and entreated them to spare his life, and he would give them all he had. He then drew from his purse a number of sovereigns and offered them to the crew, but they were thrown aside and himself passed overboard. A lad about 18 years of age, requested time to say his prayers, which was granted, and when he concluded, he said, "I am now prepared I do not wish you to throw me overboard I will go myself," and he stepped off the gunwale of the boat into the sea. Of all who were thrown overboard, not one, to my knowledge, succeeded in getting on board again. There were no hands cut off, nor any blood spilt; neither did any one, excepting the young man already mentioned, jumped overboard voluntarily.

The unfortunate passengers offered no resistance; prayers and entreaties were all they used. "Oh spare me! spare me!!" several of them cried, even while they were half overboard. I will not attempt a description of this awful scene it would melt a heart of stone. I believe there were sixteen thrown overboard.

The boat was bailed out after she had been lightened; she then rode very well, and made but little water. The following morning I discovered a sail, and communicated the fact to the mate, who said "By God, Jack, you're a lucky fellow; you have saved your life." The ship The ship that picked us up, as is already known, was the Crescent. So strong was my indignation against the negro, that, upon reaching the Crescent's deck I seized a heaver and threw it at his head.

All the crew in the boat, excepting the mate and another man, were foreigners, or as sailors say, Dutchmen, that is, men belonging to the continent of Europe.

Upon our arrival at Havre in the Ville de Lyon, the American Consul, when made acquainted with the facts, advised me and my companion to remain and give our evidence against the mate and the crew, but we declined upon the ground that we conceived the testimony of the passengers sufficient. As he was not very urgent, we were liberated after an examination before the Board of Police.

After my health was somewhat recruited, I shipped on board the Angelo, Capt. Jaques, bound for Newburyport, where I arrived on Wednesday last. I arrived in Boston on Thursday, and have made this statement for the information of the public.

Remedy for a Lightning Shock. As this is the season when all are more or less liable to experience a shock from nature's battery, the Buffalo Commercial Advertiser suggests that any person struck down by lightning, no matter if apparently dead, [illegible] extended on the damp ground; and if it do not rain upon him, water should be thrown on freely which in most cases will conduct off the electric fluid without serious injury. Many a one has lost his life, when a knowledge of these facts on the part of friends or bystanders would have preserved it.

EXTRAORDINARY ESCAPE FROM THE BOSTON JAIL.

A young man named Ferguson, confined in the jail in Leverett street, on a charge of burglary, made his escape on Monday night, in a manner truly astonishing.

His cell was in the Western jail, at a great distance from any other prisoner. By breaking his iron pan into strips, he formed a key, or instrument, with which (running his arm through the space under the door) he opened a large padlock on the *outside* of the cell, and unbarring the door, effected an entrance into the arch.

From the arch he passed to the staircase, and thence into the upper story, where he forced his way through a small *scuttle*, and a *narrow chimney*, to the roof of the building, which is very steep and slippery, being slated. How he reached the eaves of the building, is a mystery. He passed from thence to the ground, (the building being three stories high) by tearing his blanket into strips, and lowering himself down.

The means by which he passed the wall of the jail-yard do not appear. The escape was not discovered till morning, and no traces of the prisoner have yet been discovered.

DR. NOTT'S ADVICE TO A PUPIL. The following letter, says the Albany Evening Journal written some years ago by the distinguished President of Union College to a graduate, who passed under the immediate eye and guardianship of Dr. Nott, as he was about to take his seat in the Legislature of this State, having fallen accidentally into our hands, we hope the writer and the friend to whom it was written, will pardon us for giving a wide range to the golden rules conceived in abounding wisdom and expressed with precision and compactness:

Union College, 20th Jan., 1830.

Dear Sir: Since I did not find you in the other day when I called, the interest I feel in your success as a public man, will be my apology for troubling you with a few observations, the observance of which may be of some use.

Do not speak often and only on important occasions. When you speak be brief, pithy, and stop when you have finished. Speak rather in the furtherance of your own objects than in defeating those of others. Endeavor to allay the prejudices which may naturally exist between the city and the country. Be courteous on all occasions, especially in debate and to your immediate antagonists. Never indulge in personalities, never lose your temper, nor make an enemy if you can avoid it. Conquests may be made by conciliation and persuasion as certainly as by ridicule and sarcasm, but in the one case the chains are silken and sit easy in the other, iron and gall the wearer.

Though you point your arrows, never poison them; and if the club of Hercules must be raised, let it be the naked club, not entwined with serpents.

These are hints merely, but a word to the wise is sufficient. And with legislators or others, a man needs to live but one life to know how to live another, and since this cannot be done literally, we can only do it in effect, by availing ourselves of the experience of others.

Wishing you every success, I am, in haste, very sincerely yours. ELIPHALET NOTT.

Printers' Temperance Meeting, The printers of the city of New York, employers and journeymen, held a temperance meeting this evening in the Methodist Church John street. We rejoice at the commencement of such a movement among this efficient class of our fellow citizens. There is no other body of artizans, as a whole, so well informed as the printers. The printing house is a school in which the neophyte not only acquires a knowledge of his profession, but if he is steady, and possesses the ordinary intellectual gifts of man, he becomes in the double sense, a man of *letters*. There are no mere English Schools, in all respects, equal to a well regulated printing office. The consequence is, that printers as a class, are men of more than ordinary knowledge and intelligence. But in by far too many instances they have not been true to themselves. The enemy that steals away their brains has been too often at their mouths, and the consequence has been that they have not been able to command that position in society which otherwise would have been awarded to them. They generally receive high wages and ready pay; and, if one and all, they will resolve to take care of their money, and become tee-totallers, they will speedily become one of the most respectable and influential bodies in the republic.

Fire at New Orleans. On the evening of the 13th instant, a fire broke out in the large storage sheds in Magazine st., near St. Patrick's Church known as Penn's Yard, which with their contents, were entirely consumed. The loss cannot fall short of 50 or 60,000 dollars. Lambeth & Thompson, and Yeatman & Co., are the principal sufferers.

Adams's Venus Water.

THE true Remedy! the Sovereign Restorative!! the grand producer!!! The subscriber informs the public that after FOURTEEN YEARS of study, ten of which have been years of immense labor and difficulty, he has discovered the only true remedy against the loss, the sovereign restorative in case of a deficiency, and the grand producer of that most beautiful ornament of "the human form divine," THE HAIR!

That it may be known that this Venus Water is an invaluable article, I will state that in the first years of my labors upon it, its application to the head for two consecutive seasons, was necessary in order to establish a good growth of hair, but now only one season is required, so successful have been my improvements upon it! And I have the proud satisfaction of knowing that in the City of Bangor alone, three hundred and forty heads which were once bald, can, by the heavy growth of hair upon them, bear witness to the wonderful effects which this Venus Water has produced within eighteen months!

I will add a few, of the certificates almost innumerable, which have been given me by individuals who have derived benefit from this Water.

MR. T. D. ADAMS. Having availed myself of the extraordinary benefits of your Venus Water, I feel it my duty to the public, as well as to yourself, to submit for their perusal, a plain statement of the facts in my case. I had been entirely bald for seven years, and had lost my eye-brows, during which time I tried the remedies of three physicians without any benefit.

In reading over the advertisement of your celebrated Venus Water, I concluded to try it, and now am the proprietor of a fine head of hair and a beautiful pair of eye-brows.
MISS ELIZA WORTHINGTON.
Bangor, May 8, 1841.

This is to certify, that I have used Mr. Adams' Venus Water for baldness of the head, and that it has restored my a good head of hair, where before using it the hair was entirely gone. I also have used other medicines which have started the hair, but it would come out again. But the Venus Water has restored it so that it is as strong and stronger than before I first lost it. And, to all those who are troubled with baldness, I would say be sure and call on Thomas D. Adams, and try it immediately, and you will have your hair growing again forthwith.
ARTEMAS J. FGERY.
Bangor, May 14, 1841.

This may certify, that for the last six months I have used T. D. Adams' Venus Water, and have the satisfaction to say that the top of my head, which for a long time was bald, is now entirely covered with a good growth of hair.
EDMUND HOLT.
Bangor, February 23, 1841.

"I hereby certify that for the last two or three years my head has been bald, and that during that period, I have used a great number of applications recommended for their efficacy in restoring the hair, from which I have never received any benefit, some even having proved injurious, until the past summer, I made use of Thomas D. Adams' Venus Water, which has entirely exceeded my expectations, and covered my head with a strong growth of hair.
HANNAH PALMER.
Bangor, May 15, 1841.

This may certify that the hair upon the top of my head, being nearly gone and the remainder fast dropping off daily, I was induced by Mr. T. D. Adams, to try his Venus Water, and during the last year he has made frequent applications of it to my head. I have now a considerable growth of new hair, produced, as I suppose, by the use of his remedy.
Bangor, Feb. 3, 1841.
F. HARRIS.

This may certify that I called on Mr. T. D. Adams in May, 1836. I used his Venus Water for three months and it has produced as much hair as I wish to have on my head.
Bangor, Sept. 1837.
NANCY SMITH.

This may certify that my head was entirely bald, and by the use of T. D. Adams' Venus Water for three months my hair has been restored.
Bangor, Feb. 15, 1841.
CALEB B. HOLMES.

I have used Mr. Adams's Venus Water, for the growth of the hair for about six months, and am happy to say that it has answered every purpose in producing a good head of hair, and prevent the hair from coming out by combing.
Bangor, Feb. 8, 1841.
MARY JONES.

This may certify that for the last six months I have used Adams' Venus Water, and have the satisfaction to say that the top of my head which for a long time was bald is now entirely covered with a good growth of hair.
Bangor, Feb. 14, 1841.
WM. FROST.

This may certify that for the last twenty years the top of my head had been bald, but now is well covered with a good growth of hair. I used the Venus Water for four months.
Bangor, Feb. 15, 1841.
E. R. WARREN.

This certifies that I have used a preparation made by Mr. Thos. D. Adams of this city, to restore hair to the head, after it had fallen off, and having derived [illegible] benefit [illegible], I cheerfully recommend its use to others.
Bangor, Feb 16, 1841.
A. HOLTON.

The Venus Water is for sale by the proprietor at his room over the Post Office in this city.

YANKEE BAKER.

ALBERT NOYES & CO. are now manufacturing the celebrated YANKEE BAKER, which for convenience and economy in fuel, is unrivalled by any other article. One cent's worth of Charcoal is sufficient to keep it in operation one day. As an article for summer use, it will be found indispensable, as the heat is all kept within the Baker, and the baking is done by reflection from the cylinder thereby enabling one to do cooking without the addition of a great fire either in a stove or fire place.

CONSUMPTION AND LIVER COMPLAINT.

BALSOM OF LIVERWORT.

DR. TAYLOR'S BALSOM of LIVERWORT has been used successfully for eight years in the Cure of these Diseases. ☞Remember! the original and genuine is made ONLY at 375 Bowery, New York; ALL others are spurious and unauthorized.

CONSUMPTION & LIVER COMPLAINT.

As a general remedy for these diseases, I am fully satisfied from long experience, there is no medicine equal to Dr. Taylor's Balsom of Liverwort. Being purely vegetable, it can be used with the utmost safety by all persons in every condition. It cleanses the lungs by expectoration, relieves difficult breathing, and heals the chest. There can be no question, but this medicine is a certain cure for chronic coughs and colds. I have used it for four years in my practice, and always with success.

A. F. RODGERS, M. D.

☞SPITTING OF BLOOD. This disease consists of a discharge of blood, often frothy, from the mouth, brought up with walking and coughing, and is usually accompanied with difficulty of breathing, and some pain in the chest. Sometimes it is preceded by an oppression at the chest, a dry tickling cough and slight shooting pains. This disease is always more or less dangerous. The great danger is that these symptoms may terminate in consumption, and immediate remedies can alone save this end. But Dr. Taylor's Balsom of Liverwort is a sure remedy, and to shew its unparallelled success, certificates of cures from 421 citizens, and many physicians, will be published in a few days.

☞NERVOUS DISEASES AND WEAKNESS. Dr. Taylor's Balsom of Liverwort made at 375 Bowery, is assuredly an excellent remedy for these diseases. My wife has been more or less ill for ten years. She was extremely nervous and at times so weak that she could not attend to her domestic duties. By the use of this medicine, her strength is wholly restored, and she is as healthy as I can wish her to be. My address is at Dr. Taylor's office.

CURE OF CONSUMPTION. Mrs Martin, a worthy member of my congregation, was taken ill some time since with a cold, pain in the breast and some difficulty of breathing, and in a few days thereafter she had a violent cough and violent pain in the sides, which no medicine would relieve. She continued in this way for a long time under the medical care of Dr. Rea, but finally became consumptive, and was evidently near the end of her earthly sufferings, when her brother persuaded her to try Dr. Taylor's Balsam of Liverwort. When she commenced this medicine it did not seem to agree with her for a few days, but by lessening the dose she found it answered admirably. It relieved her cough and her difficulty of breathing in [illegible], and we had the pleasure of witnessing her rapid recovery to health.

THE MASSACHUSETTS CHARITABLE MECHANIC ASSOCIATION.

ANNOUNCE to the public that their THIRD EXHIBITION for the encouragement of Manufactures and the Mechanic Arts, will be opened at Quincy Hall in the city of Boston, commencing on MONDAY, SEPT. 20, of the present year.

The officers and trustees for the year 1841, having been vested by the association with full powers to make the necessary arrangements, respectfully invite Manufacturers, Mechanics and Artists, the ingenious and scientific, to offer for Exhibition and Premium articles in every department of Art, Science and Taste; choice specimens of native skill and ingenuity, useful labor-saving machines, implements of husbandry, and new models of machinery in all their variety, in fine every species of article for any useful or ornamental purpose, made of wood, stone, metal or other material. The products of the loom in silk, cotton, wool, hemp, flax or hair, and all articles devised by female ingenuity, or wrought by their industry, will have a proper place in the exhibition.

Medals (of gold or silver) or Diplomas will be awarded for all articles of merit deemed worthy of such distinction; and the Managers pledge themselves that strict impartiality will be observed in their distribution and that competent judges shall be appointed, who in no case will be competitors for premiums on articles exhibited.

In the fullest confidence that this notice will meet the early attention of the Manufacturers and Mechanics of Massachusetts, as well as of our sister States, (whom we shall be proud to meet in this glorious field of competition)—the Managers will make such arrangements as shall insure a fair and full opportunity for a display of every article which may be entered on or before the 15th of September, and although they will not exclude such articles as may be afterwards offered, yet they cannot promise them so conspicuous a place in the Exhibition as those will have which are earlier entered.

Articles intended for Exhibition must be delivered to the Superintendent at Quincy Hall, on or before Wednesday Sept. 15th.

Articles may be offered by Apprentices, (by permission of their Masters, who, if required, must give their names, ages, and the time they have served as apprentices) which will be registered, but will be judged as the productions of Apprentices.

Arrangements will be made to exhibit, in operation, any working models that may be offered, which will render the Exhibition useful and interesting.

Communications relative to the Exhibition may be addressed to WILLIAM WASHBURN, Superintendent, or HENRY W. DUTTON, Secretary, 10 & 12 Exchange street. (post paid.)

☞Important Caution. ☜

It is a singular fact and one much to be regretted, that valuable medicines, as soon as they become popular, and have received the test and approval of a discriminating public, are sure to be counterfeited, and thus a bad and spurious article is immediately palmed upon the unsuspecting as the genuine. This has been notoriously the case with all popular tried and truly valuable medicines for years past, and will probably continue to be the case for years to come.

The base and contemptible counterfeiter in this way meanly takes advantage of all the efforts and the advertising used by the proprietors of the genuine article to get their medicines into use and deserved popularity. It is therefore not less the duty than it contributes to the safety of every honest individual in the community, to expose, frown down, and forever after distrust all heartless ingrates, who thus irresponsibly trifle with health and life.

THEREFORE TAKE NOTICE.

There is a person by the name of J. K. ROCHEFORT, now engaged in selling a Pill done up in boxes in exact and perfect imitation of the genuine INDIAN VEGETABLE PILLS, with the omission of only one word on the boxes, viz. WRIGHT. The Pills sold by this Rochefort are evidently intended as a fraud and imposition upon the community or they would not have been done up in such exact imitation of the genuine. This person is tall and blustering, with a great Theatrical swagger. He was recently known as a very poor player in Baltimore, under the musical cognomen of Jim Brown, and is about twenty five years of age. It is almost beyond a doubt that he is supplied with the Pills from a Druggist firm in this city, who have been heretofore notoriously connected with counterfeit medicines. As soon as proof is obtained, the fountain head of this nefarious business will be exposed, that the community may shun them as they would a serpent.

IN THE MEAN TIME THE PUBLIC ARE CAUTIONED

against buying WRIGHT'S Indian Vegetable Pills of any one who does not exhibit a certificate of agency signed by the agent for the New England States, and bearing date since January, 1840. Also take particular notice that the following wording is on the Boxes.

WRIGHT'S *Indian Vegetable Pills* (Indian Purgative) of the North American College of Health.

THE INDIAN VEGETABLE PILLS are a certain cure for disease in its every variety of form, because they thoroughly cleanse the stomach and bowels, induce a proper discharge by the lungs, skin and kidney, and stimulate the blood to purify itself. In other words they open all the natural drains, and leave NATURE (THE GRAND PHYSICIAN) free to drive disease from the body. The above outlets, or drains, are the common sewers of the body, through which all morbid and corrupt humors (the cause of disease) are carried off, and so long as they are all kept open, and discharge freely their allotted portions of impurity the body will continue in health; but when from eating improper food, breathing impure air, sudden transitions from heat to cold, over exaustion, or any other cause, the bowels become costive, the pores of the skin become closed, or the kidneys fail to perform their functions properly, the impurities which should be drained from the body by those outlets will be retained, and continue to accumulate until the body becomes literally loaded with disease.

The above pills may be taken at all times, and under all circumstances, with perfect safety. They suit all complaints and all ages, and are as natural to the human constitution as food, consequently they can never injure even the most delicate. Like our food they are digestible; therefore they enter into the circulation, and impart an energy to the blood which enables it to flow with freedom quite to the extremities, and consequently to keep the pores of the skin open. They are true and perfect purifiers of the blood, because they drain all corrupt humors from that life giving fluid. They impart strength and vigor to the whole system, and their effects are always beneficial; because they only remove those humors which are opposed to health. They aid and improve digeston, and sound sleep follows their use; because they cleanse the stomach and bowels of their slimy humors which not only irritate and excite the nervous system, but paralyze and weaken the digestive organs. In short they possess all the good properties that can be claimed for any medicine; and what is very remarkable, it is utterly impossible to use them without benefit.

Price 25 cents per Box, with full Directions.

☞ Office and General Depot for the New England States, No 198 TREMONT STREET, near Court street, Boston.

☞ The Regular appointed Agents can receive their supplies of the above popular Pills, as heretofore, from the ONLY OFFICE and GENERAL DEPOT for the New England States, 198 Tremont street Boston.

☞ Pedlars or travelling Agents are not allowed to sell the Genuine Indian Vegetable Pills, therefore never purchase from them, for if you do you will be sure to obtain a DANGEROUS and Counterfeit article.

DR. I. W. STACY [illegible]

RESPECTFULLY tenders his services to the citizens of Bangor as Physician. Office at [illegible]

CONSUMPTION

DR. ALLEN'S BALSAM of Horehound, Liverwort, and Pleurisy Root, FOR CONSUMPTION AND LIVER COMPLAINT, Colds, Coughs, Spitting of Blood, Catarrh, Asthma, Difficulty of Breathing, Pain in the Side, Palpitation of the Heart, Oppression and Soreness of the Chest, Pleurisy, Hectic Fever, Night Sweats, Difficult and Profuse Expectoration, and all affections of the Chest, Lungs and Liver.

The Hoarhound, Liverwort, and Pleurisy Root have for centuries been celebrated in the cure of diseases of the Lungs and Liver.

Dr. B. D. Allen, after a series of experiments, has been able to extract from these medical herbs a balsam, which exerts a most wonderful effect in curing Consumption and Liver Complaint, and all other diseases of the Lungs and Chest. So great has become the reputation of Dr. Allen's Balsam that it is now used in the New York, Philadelphia and Baltimore Hospitals, and in the private practice of our most eminent medical men.

For children laboring under Inflammation of the Lungs, Colds, Coughs, Croup, Quinsy, and Sore Throat, this Balsam is of great importance. The number of deaths among children from these diseases is truly alarming. If parents wish to save the lives of their children, and themselves much trouble, anxiety, and expense, let them procure Dr. B. D. Allen's Balsam; and whenever a child has taken cold, has any fever, cough, or hoarseness, give a teaspoonful of this medicine, and repeat it if necessary; even one teaspoonful will often effect an entire cure. During the winter of 1839, rising of one thousand families employed this remedy in the city of New York. The consequence was, that the number of deaths among children was reduced to less than one half the usual number, as may be seen by the city inspector's report of deaths.

In order to give the reader some idea of the efficacy of this Balsam, and how extensively it is used, we here introduce the monthly report of the cures it performed in the month of May, 1839, as furnished us by the agent, and published in the New York Sun.

"Monthly Report of the cures performed by Dr. B. D. Allen's Balsam of Hoarhound, Liverwort and Pleurisy Root during the month of May. It has cured and completed the cure of

Consumption in	1121	cases.
Liver complaint	102	"
Dyspepsia	196	"
Asthma	91	"
Palpitation of the Heart	87	"
Raising Blood	66	"
Total	1672	

"The number of Colds and Coughs cured by this medicine are too numerous to report."

**CAUTION. Purchase none unless it has a Certificate of Copywright on wrapper and label, and the written signature of B. D. ALLEN, M. D.

The following certificates show the high estimation in which Dr. Allen's Balsam is held.

OPINIONS OF THE MEDICAL FACULTY.

At a meeting of the Medical Society of Washington County, the following Resolution was unanimously passed:

Resolved, That from a knowledge of the composition of Dr. Allen's Balsam of Hoarhound, Liverwort and Pleurisy Root, and the most astonishing effects we have seen it have upon our patients, it is our decided and unanimous opinion that it will cure Consumption and Liver complaint, and we do strongly recommend it to the faculty and the public generally.

DAVID P. HALE, M. D. Sec'y.

From J. L. Rogers, M. D. N. Y. City.

Dr. B. D. ALLEN. Dear Sir—For a year past I have been in the habit of prescribing your Balsam of Hoarhound, Liverwort and Pleurisy Root to my patients in private practice. I have also used it in the Hospital. I find it a remedy of great efficacy in affections of the Lungs and Liver. In cases of Consumption, Cough, Asthma, and Bronchitis, I have found it a very efficacious, and I believe it is prescribed very generally by the profession.

I have the honor to be, yours, &c.

From Rev. D. Scott of New York.

Dr. B. D. ALLEN. Dear Sir—I am most happy to inform you that your Balsam of Hoarhound, Liverwort and Pleurisy Root has cured me of a Liver complaint; a disease under which I had labored upwards of six years. I have recommended it to several of my friends who are afflicted with the same malady, and in every instance has it been successful. Hoping that God may spare your life for usefulness, I am respectfully yours.

NOTICE OF FORECLOSURE.

THE subscriber, of Bangor, county of Penobscot and State of Maine, hereby gives public notice, that Robert Boyd and Lendal G. S. Boyd, both of Portland, in the county of C[illegible], by their deed of mortgage dated Sept. 21st, 1835, and duly recorded in the Penobscot Registry of Deeds, book 68, page 253, conveyed to the subscriber one undivided quarter part of a certain tract or parcel of land situate in Bangor, aforesaid, on the West side of Kenduskeag River, and described as follows, viz: Beginning in a line of the Avenue road, so called, in a line of land owned by William D. Williamson, thence westerly by said line to the head of [illegible] thence at right angles to the Carmel road, so called; thence by the line of said road to a stone with a hole in it; thence at right angles in a line of land owned by William Emerson to the Avenue road aforesaid; thence in a line of said road to the first mentioned bound, being the same [illegible] to said [illegible] by said Wyatt's Deed to said R. and L. G. S. Boyd and others, dated the day and year aforesaid: which said fourth part the said R. and L. G. S. Boyd re-conveyed to me to secure the payment of certain notes of hand mentioned in said mortgage to which reference is had.

Also, that James T. Hobart, now or lately of Boston, county of Suffolk, and State of Massachusetts, by his deed of mortgage, dated Sept. 21st, 1835, and duly recorded in the Penobscot Registry of Deeds, book 68, page 254, conveyed to the subscriber the undivided eighth part of a certain tract of land situated in said Bangor, being the same conveyed by the subscriber to the said Hobart by deed bearing date the day and year aforesaid, and re-conveyed to me to secure the payment of certain notes of hand mentioned in said mortgage, to which reference is had; and whereas the conditions of each of said mortgages have been broken by reason of the nonpayment of the sums expressed therein the subscriber therefore claims to foreclose said mortgages and gives this public notice of his claim and foreclosure in pursuance of the statute.
